

School of Movement

Project 2

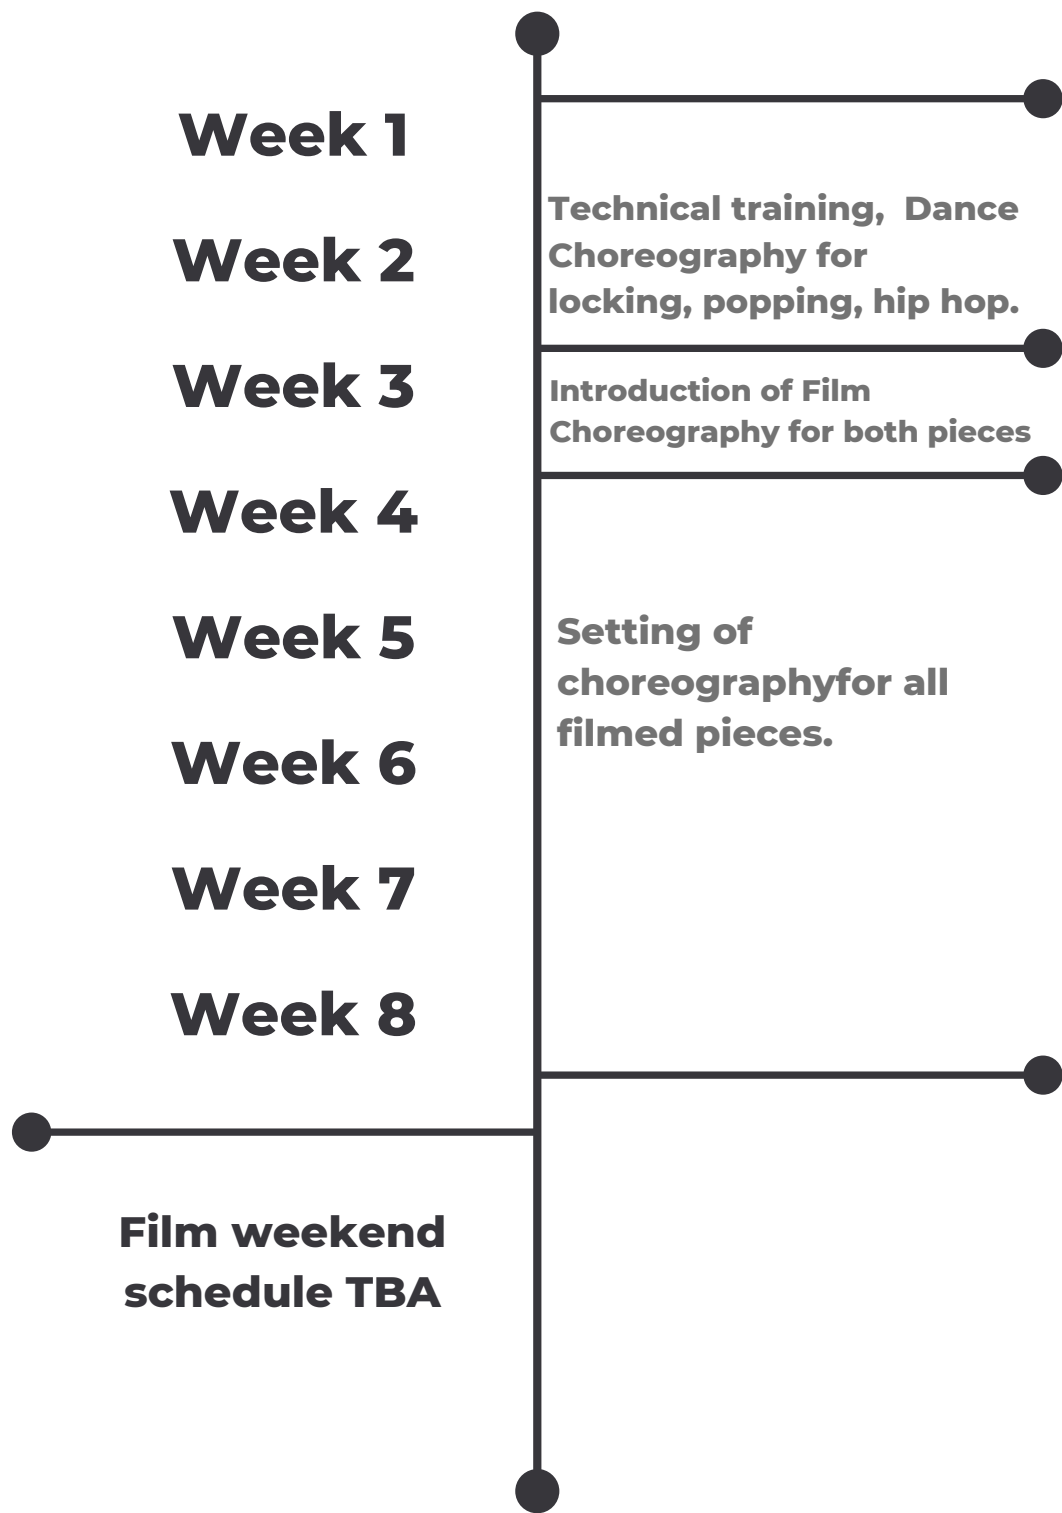

Winter '21 Semester
Redef Teen Performance Company

January 4th - February 26th, 2021

Theme

Stupid Humans part 2"

The teen performance company continues to train and learns choreography to perform alongside the professional dancers of The Redef Movement for placement in the film production of "Stupid Humans: Vaudeville". This movie is comprised of over a dozen dance films that will be produced throughout this semester for all Redef dancers. Project 2 places this company in the filmed work for "Funky Broadway" & "The Backstage Dance" to round out the final dance films being produced for this movie. The entire Stupid Humans film will premiere late winter/early spring and will feature the dancers of this company as part of the main cast.

Redef Performance Company dancers have ongoing opportunities to train and attend additional classes for free between the film shoot & the start of the next semester. Classes are set to resume in early March after the conclusion of the final Stupid Humans film shoot.

Project 3

With Stupid Humans- Vaudeville concluding, the teen dancers will pick up the spring semester almost immediately after the film dates, switching focus to pieces for live appearances (pending current status of live events) and new dance films for Redef's next movie projects.
